

Escape Games For Sale – Available Designs and Custom

I offer a few tested game designs, at a cost of \$100USD each. The games are all 15 minutes long and can take place inside a 10' x 10' space (canopy tent tested). They do not use any tech puzzles, though you may be able to swap some in if you so wish.

These mini-games are intended as starters – for players and owners. They are basic games that are easily modified or changed to meet your needs. There is a clear method to follow in creating them so newbies to the industry can get them going, but those with more experience can easily change them – for the better!
